F. E. Tribble
817 S. Barnes
Springfield, Missouri 65802

Dear Mr. Tribble:

On a recent occasion, City personnel observed a person apparently emerging from your residence dumping a petroleum substance near the sinkhole across the street from your property. Such an action is in direct violation of City, State, and Federal Laws. The laws contain severe penalties for discharge of oil or petroleum products. Further, the utilization of sinkholes for disposal of waste material can result in groundwater contamination.

This office maintains periodic surveillance throughout the corporate limits of the City, and will watch this area closely.

The City of Springfield will gladly furnish information on the proper disposal of oil and petroleum products. If we may be of any assistance or can answer any questions, please do not hesitate to call.

Yours truly,

Gary J. Pendergrass
Water Pollution Control Inspector II
Surveillance & Enforcement
